On the following morning all the coolies in Mr Guedes' employ turned up except the defendant, and as the two coolies in the employ of Achee were also missing, suspicion pointed very strongly towards the defendant and his companions. The Police were informed, but though diligent search was made by Inspector Lindsay and others at the time, no trace of any of the thieves was discovered. The prisoner only returned to the Colony a few days ago, no doubt under the belief that his crime was forgotten, and that it would be difficult to prove the charge as several parties who would have been material witnesses are now dead. An inquest was opened in the Gaol this afternoon before the Coroner, Mr Wodehouse, and the following gentlemen as a Messra W. Detmors, C. P. Karberg and H. E. Denson, respecting the circumstances attending the death of Choung Amim, a man who had preferred a charge of assault against four men on Thursday night, and who was fined 50 cents or two days' imprisonment, for contempt of Court. it being believed by the Police that he was feigning sickness when he said that

he was too ill to give his evidence. The men who had been charged by him on the previous night were discharged, and he deceased was sent to Goal, where he died at seven o'clock yesterday evening. The four men word re-arrested and charged with

causing his death. Inspector Hennessy said the decease came to the Central Station about half past eleven on the night of the 13th instant, and charged the four prisoners with having assaulted him. Witness locked up the prigoners. The deceased was sick, but the only thing witness saw was a wound on the head, which did not appear to be serious; and which was only bleeding slightly. The

was only skin deep, and the deceased said he had no other bruises. The man declined to go to Hospital. He was not apparently much shurt, and was able to walk about and talk. The deceased at one time lay down as if unable to move, and at another got up and moved about as if nothing was wrong with him. From his general demeanour witness thought the deceased was shamming. After lodging the charge the deceased went away, and next day came to the Magistracy to give his evidence. Witness was present in the court, and mentioned to the Magistrate, just as the case came on, that he thought the deceased was feigning sickness. His behaviour in Court was much the same as it was in the charge-room on the previous night, though he looked slightly worse. Witness still thought he was shamming. but assisted him forward. He refused or was unable to give any evidence. and after witness, P.C. 86 and the interpreter of the Court had stated that they thought he was shamming, and after he had been warned by the Ma istrate that if he did not give evidence, he would be punished deceased was fined for contempt of Court. Dr Avres, Colonial Surgeon, said that between ten and eleven o'clock he was called to the deceased who was in the Prison Yard, to examine him, as he had been informed that there was an idea that he was feigning sickness. He made a superficial examination of the cuts on the head, which seemed to be the only thing wrong with him These wounds appeared to be slight. Witness's opinion was that the deceased was feigning much more sickness than he was really affected with. His eyes betokened intelligence, and he did what he was told. The deceased walked fairly steady, and showed no great symptoms of weakness. TELEGRAMS.

London, June 11 .- A Democratic meeting was held in Hyde Park to-day to protest against the Repression bill, and 30,000 people were present. Several English and Irish Members of Parliament attended, and Joseph Cowen, a Radical Member, vigorously donounced coercion.

June 12 .- The Admiralty has received despatches confirming the report of the murder of the engineer of the Superb in the fighting at Alexandria. Except a deliberate attack upon the Consuls when proceeding to the residence of the Governor, the trouble seems to have been confined to Aribs and Levantines. No English residents are reported wounded. The Times' correspondent at Cairo lays the responsibility for the riots upon Arabi Pasha. Dervish Pasha had summoned him to resign, and there seemed no alternative but submission or defiance; but since the riots broke out, Dervish Pasha has had to appeal to Arabi Pasha, as commanding the only available force, to restore order.

A telegram published here says that the heads. official report of the riot in Alexandria gives

to reinforce the garrison. In the House of Lords Granville stated that Admiral Seymour was empowered to land sailors at Alexandria, if necessary.

In the House of Commons, Dilke, the Under Foreign Secretary, read telegrams from Alexandria, stating that the Consul is convalescent and the riots not of a political character. A despatch from Alexandria, dated at 2 o'clock this afternoon, says the town is quiet.

Roper, arrived from Hongkoug with 806 Chinese on board. The vessel left Hongkong May 14th; with a clean bill of health, but there is a discrepancy as to the actual number of her passengers. For instance, she is credited with having, in addition to three Temale children, but seven female adults, whereas the captain yesterday admitted having twenty-two Chinese women on board, each of whom will come into our photograph attached, as in the case of the Glamis Castle women. The vessel has a crew of sixty-five, of which number twenty four are Chinese. The passengers have not yet been vaccinated, and as there is no white doctor on board it is probable that a physician from the shore will be engaged to-day to perform the work. The offer was rejected, and the moneyed Colestia was compelled to submit with the usual Chinese grimage.

In reference to the statement published in the Alta, that the berths of the Anjer Head were illegally arranged, Capt. Roper admits the truth of the statement, but says that as his vessel has been previously surveyed in this port and no objection made to this style of burth, the Custom Officers cannot now interfere in the matter. As the attention of the officers has been called to the berths of the Amerley and Anier Head, it remains to be seen what foundation there is for the captain's assertion.
